HIKING AND BIKING GLENDORN

Glendorn's 1600 acre estate

The property at Glendorn has a wide range of trails for hiking and biking. The 18-mile trail system offers various levels of hiking and biking adventures for you to explore while staying with us. You can find a color coded tri-fold trail map at Fuller Brook Outfitters to take with you with suggestions for trails ranging from easy to most difficult. One of our activities guides will be happy to suggest and highlight a loop or you may just start exploring on your own. Arrangements can be made for pack lunches to take along or be delivered to several picnic areas on the grounds.

Allegheny National Forest trails

For more adventure try a day hike in the Allegheny National Forest (ANF). Trail maps are available at the Bradford District Ranger Station. The trails on the ANF are for more advanced hikers with a good sense of direction in the woods—quality hiking gear is recommended. Most day hike loops in the ANF range from 8-14 miles in length. There are also several picnic areas that have short and easy loops with scenic views across the Allegheny Reservoir.

Biking

A vast majority of the trails & roadways at Glendorn and its surrounding area are great for road and mountain biking. Let one of our activities guides suggest a trail or road for your next ride. A limited amount of biking gear is available at the lodge. We have a line of Trek 29er Mt. Bikes, Tandem and Beach Cruisers, along with a range of helmets.

Group rides are offered each Tuesday evening at 6:00 p.m. for road and Thursdays at 6:00 for Mt. Bike out of Bradford's local bike shop, Just Riding Along.

FLY FISHING

Fly fishing is one of the many activities that guests enjoy at Glendorn. Our Glendorn property and Spring Creek Property give you access to several miles of privately managed brooks, streams and ponds for trout fishing. Our Orvis Endorsed guides can instruct novices as well as seasoned anglers.

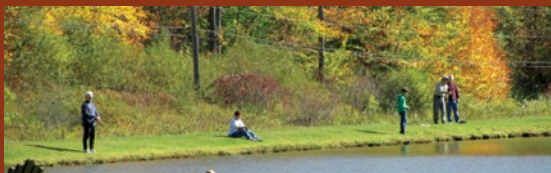

Bondieu Lake

Glendorn's largest lake and the most open for casting. Bondieu is easily fished from its shoreline as well as from a canoe, kayak or drift boat, which you can find at its dock. Bondieu has a variety of hatches including green & brown drakes, caddis and midges, so you'll often find fish rising and readily sucking in dry flies.

Skipper Lake

Home to very large trout, Skipper is Glendorn's next largest lake. Skipper is situated right in the heart of the property and is closest to the main lodge and cabins. It's a great place to wet a line if you're limited in your fishing time and while you're there stop in the boat house and spin up a couple flies at our fly tying bench.

Jill Lake

Jill's Lake is Glendorn's small fishing pond at the far-west side of the property. Because all of its banks are tree lined, Jill's can be the most difficult for casting. If you can roll cast or manipulate your back cast through gaps in the trees branches, you'll be rewarded with eagerly feeding trout. Jill's has various mayfly, caddisfly and midge hatches throughout the season.

Fuller Brook and Tununguwant

Fuller Brook is Glendorn's prized trout stream and offers excellent fishing from its banks. It meanders for three and a half miles throughout the property in two branches, converging into one branch at the Roost Cabin bridge. Fuller Brook flows throughout the property before emptying into the Tuna. The Tuna runs approximately two miles and is outstanding for trout fishing.

Spring Creek Property

Located a short drive from Glendorn lies our Spring Creek property. Spring Creek is designated as a Class 'A' Wild Trout Stream by the state of Pennsylvania. This stream has been left in its natural state, leaving it pure and pristine, and blessed with populations of wild brown and brook trout. With its wide variety of hatches and an abundance of mayflies, midges, caddis, and stoneflies, this is truly a fly fishers dream.

SHOOTING
